

## BANNER FINISH OPTION

## WINDSLITS

ADDING WINDSLITS TO YOUR BANNER WILL HELP REDUCE WINDLOAD AND REDUCE POTENTIAL DAMAGE TO THE BANNER AND ANY STRUCTURE IT MAY BE ATTACHED TO. THE MORE WINDSLITS YOU ADD TO THE BANNER THE LESS WINDLOAD THERE WILL BE. WINDSLITS **CAN** INTERFERE WITH YOUR DESIGN. THE SUGGESTED WINDSLIT OPTION IS NON-UNIFORM WINDSLITS THAT ARE STRATEGICALLY PLACED TO AVOID TEXT AND LOGO(S) IN YOUR DESIGN. WITH THE UNIFORM WINDSLITS OPTION, WINDSLITS ARE PLACED IN AN EVEN PATTERN THROUGHOUT THE BANNER WITHOUT REGARD TO TEXT AND LOGO PLACEMENT IN YOUR DESIGN.

### NON-UNIFORM EXAMPLE

WHITE HALF-CIRCLES  
REPRESENT NON-UNIFORM  
WINDSLITS
